New Economics Journals[†]

Binus Business Review

Binus Business Review is an international journal published in May, August, and November, hosted by the Research and Technology Transfer Office of Universitas Bina Nusantara. The journal contents are managed by School of Business Management and Faculty of Economics and Communications. BBR provides a forum for lecturers, academicians, researchers, practitioners, and students to deliver and share knowledge in the form of empirical and theoretical research articles, case studies, and literature reviews. The journal invites professionals in the world of education, research, and entrepreneurship to participate in disseminating ideas, concepts, new theories, or science development in the field of Economics, Business, Management, Accounting, Finance, Tourism, and Hotel Management through this scientific journal. There is no submission charge and article processing charge for all accepted papers, and will be freely available to all readers with worldwide visibility and coverage.

Journal of World-Systems Research

The main editorial goal of the Journal of World-Systems Research is to develop and disseminate scholarly research on topics that are relevant to the analysis of world-systems. We especially want to include works that proceed from several different theoretical stances and disciplines. These include, but are not limited to, civilizationists, evolutionary approaches, international political economy, comparative, historical and cultural analysis. We seek the work of political scientists, historians, sociologists, ethnographers, archaeologists, economists and geographers. We especially encourage works that take theory seriously by confronting problems of conceptualization and making definitions of concepts explicit, by formulating hypotheses, constructing axiomatic theories and causal models. Theoretical research programs that combine theory construction with comparative research are badly needed to take the world-systems approach beyond the stage of a perspective.

Iberoamerican Journal of Development Studies

Ibero-American Journal of Development Studies publishes high quality multidisciplinary research on development, understood as the social, economic, political, cultural and technological process of change. This kind of development has to provide more and fair equality of opportunities to everyone, and thus to

[†] This list is consisted of the journals that entered to EconBib Index created by KSP. The list is updated with the each volume of JEB and incorporated the new added journals to EconBib. Please visit the official EconBib website www.econbib.org to see the contents of each journal. The journals, which may want to enter to the list and be indexed by EconBib, may find the conditions in EconBib website. "The register form" in the website should be submitted to the stated e-mail address. All journals within EconBib are updated automatically when new volumes of JEB are published. Detailed information about EconBib can be found in its website www.econbib.org.

Journal of Economics Library

enable the development of all its potentials. It has also to preserve for future generations the access and use of natural resources, environment and cultural heritage. Papers can have a theoretical, empirical, or public policy focus. They have to present the results of original research, with clear arguments, empirical evidence and a high quality writing style. The intended audience of the journal includes development academics, researchers and practitioners in a multidisciplinary scope. This scope includes Legal and Social Science, Health Science, Fundamental Science, Arts and Humanities, or Engineering and Architecture. The Journal is jointly published by the Chair of Development Cooperation, based at the Universidad de Zaragoza (Spain) and the Spanish Network of Development Studies (REEDES). The editorial board consists of the editors-in-chief, some associate editors, and the editorial advisory board. The editors are responsible for the editorial and scientific policy of the journal, as well as for the coordination of the editorial process. Prestigious international researchers sit on the editorial advisory board, with the aim of advising the editors. The journal publishes two issues per year. The journal provides free online access to the papers. Manuscripts sent for publication may be written either in English or Spanish. Spanish manuscripts have to provide English title, summary and keywords. Manuscripts are subject to a double blind referee process. Referees are external experts, and do not belong to the editorial board or the publisher of the journal. Blind referees assess the originality, relevance and scientific quality of the contribution. They will communicate their editorial decision to the editors.

Jurnal Ekonomi MODERNISASI

JURNAL EKONOMI MODERNISASI (JEM), (Print ISSN- 0216-373X, Online ISSN: 2502-4078) is multi-disciplinary, peer-reviewed and open-access journal. The Journal published three times a year by Economics and Business Faculty, University of Kanjuruhan Malang, emphasizes on aspects related to economics, management and accounting. We welcome contributions from scholars and practitioners in the field, papers can be written in Bahasa Indonesia and English is preferred.

Jurnal Economia

Jurnal Economia (JE) is published by Faculty of Economics, Yogyakarta State University. It contains a theoretical or research manuscript related to Economics, Accounting, Management, Business, Entrepreneurship, and Finance.

European Journal of Economic and Political Studies

EJEPS aims to provide an intellectual platform for social-scientific studies, a platform in which research in alternative paradigms for economic and social inquiry could be presented and debated. The journal seeks to promote interdisciplinary studies over issues of theoretical, practical, and historical importance in dealing with the rich array of problems in economic, political, and social processes. All empirical methods – including qualitative, quantitative, laboratory, and combination methods – are welcome. Subject areas suitable for publication include, but are not limited to the following fields: Accounting and Financial Reporting; Corporate Governance; Banking & Financial Services; Corporate Finance; Development of Capital Markets in Emerging Economies; Environmental Economics; Macroeconomics & Microeconomics; Investments & Portfolio Optimization/Management; International Business, Finance & Economics; Public Administration; Social Economics & Politics.

Studies and Scientific Researches: Economics Edition

The Studies and Scientific Researches: Economics Edition (SCECO) is a peer-reviewed journal from Faculty of Economic Sciences, "Vasile Alecsandri" University of Bacau, in association with Center for Economic Studies and Research, for publication of research regarding aspects of economics and business related knowledge, education, and practice. It provides local, regional and global view on mentioned subjects of benefit to scholars, educators, students, practitioners, policy-makers and consultants. In the search for quality and accountability, our journal focuses on: Qualitative and quantitative empirical research articles; Refereed theoretical and conceptual articles; Refereed literature reviews; Refereed articles reporting methodological advances. Studies and Scientific Researches: Economics Edition is dedicated to supporting and encouraging the publication of high quality scientific articles in economics and business, being a platform where researchers in the field, but also in related fields can exhibit their valuable work. Journal focus is on the use and development of ideas, principles and tools especially in areas such as economics, international business, accounting, statistics, marketing and management, but not being restrictive in its editorial policy. All submissions are subject to a double blind peer review process.

Management Dynamics in the Knowledge Economy

Management Dynamics in the Knowledge Economy provides relevant theoretical frameworks and the latest research on management and economics challenges in the context of the emergent knowledge economy. The journal is published quarterly. There is no processing charge to be paid by the authors. Submissions are welcomed all year round. The aim of Management Dynamics in the Knowledge Economy is to address in an interdisciplinary framework the dynamics of the organization management and its strategic approaches by considering the imperatives and the contingencies of the new societal and economical environments at a local, national or global scale. Moreover, the journal is interested in research that surpasses the boundaries of single academic subjects and of the paradigms and assumptions of individual disciplines or functions, so it bridges the gap among different areas, such as: Knowledge Management, Strategic Management and Marketing, Entrepreneurship, Leadership Development, Organizational Behaviour, Human Resource Management, Financial Management, Emerging Markets, Managerial Economics, Market Economy, etc.

Acta Universitatis Danubius. Œconomica

The Faculty of Economic Sciences of the “Danubius” University from Galați, Romania, has started publishing a scientific review: Acta Universitatis Danubius. Œconomica, since 2005, in English and French language, that is distributed both nationally and internationally and its main domain of study is economics. The theme of the review is very diverse. The scientific published articles encompass economic areas, from general economic theory, management, marketing, commerce, finance, accounting, insurance, banks and stock exchanges, economic analysis, international economic relations to economic mathematics and informatics, financial and commercial law and history of economics. The review presents theoretical studies from all fields of economic activity, combining theoretical approaches with the presentation of practical cases, providing well documented answers to a wide range of issues encountered in the economic environment. The review represents the theoretical and empirical studies in all economic areas and it is written by authors that are mainly from the academic world, but also researchers, master’s students, managers, entrepreneurs, business people, etc. AUDŒ is peer review journal. All research articles in this journal undergo rigorous peer review, based on initial editor screening and anonymous refereeing by at least 3 anonymous referees. The peer review process is essential in terms of quality as the articles that have undertaken the process are considered highly credible because they have undergone scrutiny by experts with particular knowledge in the topic. The primary aims of peer review are 2-fold: to decide whether or not an article should be published (based on quality and relevance to the journal), and to improve the article before publication.

The Journal of Accounting and Management

The Journal of Accounting and Management published in 2011 with the help of the Danubius University of Galati, has the mission to distribute, in the academic national and international environment, the results of scientific research of our teacher staff and collaborators by publishing studies of high theoretical and applied performance. The area of research covers accounting and management articles but also interdisciplinary working papers as well empirical studies and case studies. JAM is blind peer review journal. All research articles in this journal undergo rigorous peer review, based on initial editor screening and anonymous refereeing by at least two anonymous referees. The blind peer review process is essential in terms of quality as the articles that have undertaken the process are considered highly credible because they have undergone scrutiny by experts with particular knowledge in the topic. The primary aims of blind peer review are 2-fold: to decide

We would welcome scholars and researchers engaging in the related field to submit your manuscripts to MMSE. Both of online submission and E-mail submission are acceptable.

Revista de Turism - Studiisicercetari in Turism

Revista de Turism (RDT) - is a biennial publication of tourism studies and researches within the Economics, Business Administration and Tourism Department of Economic Sciences and Public Administration Faculty - "Stefan cel Mare" University of Suceava, Romania. The emerged necessity of a journal with a tourist's profile in the publishing space of Suceava County and Romania is obvious if we take into account, besides the notoriety of the tourist's area of Bucovina, the existence of a higher education institution with a consolidated tradition within "Stefan cel Mare" University of Suceava. The tourism journal is conceived and edited by the members of Economics, Business Administration and Tourism Department within the Faculty of Economic Sciences and Public Administration - "Stefan cel Mare" University of Suceava. The tourism journal aims to be an analytic instrument of presentation for both of the realities from the practice corresponding to the tourist's sector and of the theory rediscovered in the specialized literature of this field. RDT provides a forum for academics and practitioners to contribute to the body of knowledge on hospitality. Taking into account the dynamic change in industry and consumers with ever more demanding expectations, RDT aims to develop the platform where new theoretical and practical topics are presented. Our proposal is to reveal the tourism issue from a disciplinary point of view by presenting works with scientific and publishing quality that bring up theories, models and researches, but also analyses concentrated on some phenomena of interest from the tourism area, in a national, European and international perspective. We will approach and discuss upon different aspects of interest both for the ones who consider the events of the tourism area from an observable perspective and a scientific analyze and for the ones directly concerned in the tourism sector.
